(a) Parabola
$y = x^2$
P (17:36)
PI (18:01)
PID (18:17)
y (m)
x (m)
(b) Sigmoid
$y = 2/(1 + e^{-x}) - 1$
PID (18:27)
y (m)
x (m)
(c) Distance from the reference curve
parabola, P
parabola, PI
parabola, PID
sigmoid, PID (18:27)
distance (mm)
t (s)
